

It's time to flip the script on IBS-D.

Find out if you may qualify for the PREVAIL study.

Right now, the PREVAIL clinical research study is enrolling adults with irritable bowel syndrome with diarrhea (IBS-D). Researchers are testing an investigational drug to learn if it may become a future treatment option.

People who volunteer and qualify for this study will participate for up to 19 weeks. Your health is very important to us and will be monitored throughout the study.

You may qualify to participate in this study if you:

- Are an adult aged 18 to 75 years
- Have abdominal (belly) pain
- Have frequent diarrhea

All study-related medication and care will be at no cost to you.

Contact us today to learn more.
